Directors/Centralized Training Institutes

Sub: **Policy regarding one-time provision of LED lights in Railway residential quarters.**

Earlier vide Board's letter of even no. dt. 27.03.15, directives were issued for use of LED light fittings over IR.

2. In this reference, to get complete benefit, of reducing load by providing LED lights, all the residential quarters should be 'one time' covered by providing LED lights. This will benefit railway in reducing its peak load demand, which will deter load enhancement in view of continuously increasing loads due to various additional demands in the railway houses etc. & thereby railway shall not be required to pay additional charges for the load enhancements etc.

3. Accordingly, it has been decided that all zonal railways, PUs & CTIs must plan for 100% LED lights in all **residential buildings** by sanctioning of work on Out of Turn (OOT) basis in PH-36 under their own powers from within their own fund allotment to cover them to the extent feasible in FY 2017-18 itself. The others should be planned to be completed by 30.06.18.

4. *This issues with the approval of **Board (MTR & FC)**.*
