PRESS RELEASE

CORE surpasses its previous best of 4283 RKM of electrification.

Continuing its relentless march towards 100% electrification of Broad Gauge routes by December'23 in Mission Mode, CORE today created a new record by surpassing its previous best electrification of 4283 RKM in the financial year 2021-22.

CORE achieved this accomplishment with the electrification of record 478 RKM of sections on 29/03/2023 across India. With year ending round the corner, hectic activities are going on in sections where the works are nearing completion to ensure that statutory inspections are completed before 31st March 2023. Till 29/03/2023, 4387 RKM of electrification has been done of which 1527 RKM has been completed in the month of March alone and in the remaining two days till 31st March, an additional 400 RKM of electrification is expected. With this, it is certain that CORE will create an unbeatable record of highest ever electrification in FY 2022-23.

General Manager, Shri Pramod Kumar has congratulated all concerned on this major achievement.
