

# Electrifying Indian Railways

Our vision is to achieve 100% Railway Electrification. We aim for a carbon-neutral, sustainable, and future-ready network. Indian Railways will be a global leader in sustainable rail transportation.

# Strategic Objectives

## Complete Network Electrification

CORE met all electrification targets set by the Ministry of Railways.

## Maintain Excellence

Sustain record-breaking pace while ensuring quality and safety.

## Technology Leadership

Pioneer advanced electrification technologies.

## Green Transportation

Eliminate diesel traction for carbon neutrality.

## Technological Advancement

Drive innovation in smart grid and renewable energy.

# Key Achievements

100%    48,029    76%

Electrification  
Target

Achieved all set  
targets.

Route  
Kilometers

Total electrified RKM.

Total Work

Percentage of total  
work completed.

# Next Steps

Indian Railways is committed to a fully electrified, sustainable future.  
We will continue to innovate and lead.
